

# MAINTENANCE SOLUTIONS

## The 30/60/90 Story

- Cars use 30% of their available horsepower

- Trucks use 60% of their available horsepower

- Off-Road Equipment uses 90% of its available horsepower

**Trucks don't use automotive oil,  
why would you use truck engine oil  
for your off-road equipment?**

**Moral of the Story;  
Use the right oil for  
the right application**
